ANDREW CHAINNEY CYNON VALLEY PARTY CANDIDATE

I was born and raised in Aberdare. Attending Comin Infants and Junior, Aberdare Boys Comprehensive, Aberdare College and the University of Glamorgan. I studied Electronics and Digital Video. I live with my partner Dawn and stepdaughter in Bwllfa Dare.

I was introduced to volunteering in 1992 at Groundwork Merthyr & Cynon and have continued volunteering since for organisations such as UNA Exchange, Town Twinning, Our Aberdare, Princes Trust Volunteers, and more recently as a Governor at a local school. My working life started by assisting people with special educational needs, a stint at Legal & General and then as a DJ and entrepreneur. I have continuously employed people in the Cynon Valley since 2004. I have not only created interesting jobs but also encouraged talent from outside the area. People travel into our valley to work and not out of it.

My business and volunteering experience has given me a broad view of the world and more importantly an understanding of how government works. I am privileged through my business

to come into contact with the worlds greatest thinkers, scientists, trainers, inventors and business leaders. It is a constant source of inspiration and drive. I believe that I have the ability, knowledge, determination, humility, empathy and capability to represent the people of the Cynon Valley at Westminster. I will always put my constituents before any party politics. I am forward looking and know that the Cynon Valley is a great place for business to flourish and our community to thrive. I am determined to make connections and bring employment and jobs suitable for the 21st century and beyond to our area. Please trust and support me to steer this valley in a new and exciting direction.

WHAT WILL THE CYNON VALLEY PARTY DO IF ELECTED?

- We will honour the result of the 2016 EU referendum.
- We will be guided by the constituents of the Cynon Valley.
- We will not have to follow a 'party whip' meaning that we are free to vote for the benefit of the Cynon Valley.
- We will show respect, be accessible and listen to the residents of the Cynon Valley.
- We will campaign for new business initiatives and support home grown enterprise.
- We will fight for the re-opening of police stations and more visible policing.
- We will forge stronger bonds between Westminster and the Cynon Valley.
- We will support the modernisation of the UK Parliament, including:
 - The introduction of proportional representation.
 - Abolition of hereditary peers.
- We believe that:
 - Austerity measures need to be ended.
 - Zero hours contracts should be abolished.
 - Free healthcare through the NHS is essential.

Our area had riches in natural resources. That coal and iron was extracted from the valley and made others rich and prosperous. Today, our natural resources are our people. Our young people with dreams, our older people with experience, and new residents with ambition. Do not let this human natural resource be exploited and dragged away as the coal and riches were in the past.

When coal is crushed for long and hard it becomes a diamond. I believe we have been pressured for too long and too hard by too many external forces. It is time to break free from the manacles of a Labour legacy and set ourselves free. Create our destiny and lead others in changing this valley for the better. It starts at home and it starts now! It is time for this valley to become that hardened diamond and shine.
